- (6) 16 controllers per network

# ACCESSORIES

TSSI Systems Ltd offer the complete range of accessories to complete any access control/Intercom installation. There are too many to display on one page, so please contact us if you are looking for something a little bit different, or if you are having problems sourcing a solution. Our range covers electric releases, exit switches, Magnetic Locks, Solenoid Bolts, Electric Locks, Break Glass Units, Door Loops, PIR's, etc etc.

# WIRELESS ACCESS CONTROL

One of the fastest growing areas in access control is the wire-free solution. This technology has been used in hotels for many years, but we are now introducing several ranges which are suited to the commercial/domestic market.

Our ranges cover Dallas tokens, RFID cards/tokens, Fingerprint, PIN, and Smart Card technology. These systems can be PC based, or stand alone devices.

TSSI Systems Ltd., are a company which specialises in the supply of audio/video intercom systems, as well as Access Control products to the trade.

We have many years experience within this field, and are at the forefront of technology. Our main aim in business is to provide solutions to Access Control, and Intercom requirements, both on time, and within budget. Our expert engineers offer on-site assistance, as well as advice over the telephone.

We have a dedicated sales team who are fully versed in the current U.K & European standards affected within this industry. They are able to offer expert advice in not only Access Control, or Video Entry systems, but also in compatibility with many other systems (Systems integration). TSSI Systems Ltd offers a complete scheduling, and quotation service which is F.O.C.

We hope that you are able to find what you are looking for within the catalogue, but please feel free to contact us directly if you require any further assistance.
