

SECURING BUSINESS AROUND THE WORLD

# fingerprint biometrics

Do you want to prevent unauthorised access?  
Can people gain entry with lost or stolen cards?

**Secure your site with biometrics!**

We all know securing access to your site is important. So why risk it by allowing access using lost or stolen cards? Protect your staff and your building with a proven and reliable fingerprint reader. Easier than ever to install, there is no reason not to!

TSSI's family of Verid+ biometric readers have a range of interfaces that will integrate easily into access control systems.

Managing the fingerprint data is no longer a problem either! The Verid+ family includes Legic, iCLASS and Mifare versions. Templates can be stored either in the readers, or in the smart card, allowing a range of template management options.

Reliable, simple to install and easy to operate Verid+ provides the right biometric solution for secure access control.

# fingerprint verification

Open up new market opportunities with the world's smallest fingerprint template!

TSSI's small template can be stored easily on a variety of cost effective smart cards. This exciting new development led to TSSI being presented with the prestigious IEE 'Innovation in Engineering Award'. The Verid+ family of products is ideally suited to physical access control and bespoke projects that need a cost effective, reliable and flexible solution.

## How our customers use Verid+

- **Airports** - air side access
- **Banking** - access to cash rooms
- **Border control** - restricting illegal aliens
- **Building Management** - biometric access control
- **Cash in Transit** - securing cash movement
- **Hospitals** - access to drugs supplies
- **IT** - securing server rooms
- **Police** - securing firearms
- **Prisons** - restricting in-mates
- **Retail** - loss prevention for stock

Adding biometric fingerprint verification to your access control system or your existing products has never been easier than with TSSI's Verid+ biometric fingerprint reader.

TSSI Systems have delivered secure solutions to Government, Healthcare organisations, Prisons, Police, Financial institutions, Retail and Automotive industries.

Verid+ is supported by TSSI's Helpdesk and Product support team. Our engineers and product consultants are ready to advise and help solve your security requirements - and help you to secure your business.

## Features of Verid+

- Available as PIN Prox & Smart card
- Easy installation
- Fast enrolment
- Integration with third party products
- 52 byte template
- TCP/IP capabilities
- CE Mark EU
- Robust
- Reliable
